Who's still

fueling

genocide?

MICHEL
HAMBURG

In June of this year, Maersk announced that it was going to cut ties with all companies linked to illegal Israeli settlements.

This came off the back of the Palestinian Youth Movement's Mask Off Maersk campaign, targeting the shipping giant for its role in supplying Israel with weapons and resources.

While this is just but a partial step in holding Maersk to account and cutting ties with the entire war machine, it sets an important precedent that multi-national firms cannot continue profiting from genocide without facing consequences. The fight continues.

In line with this strategy, the Global Energy Embargo for Palestine campaign is **targeting the top five European companies transporting oil and coal to Israel.** These companies are:

MINERVA MARINE Inc.

🇬🇷 Made 16 shipments to Israel between September 2023 and July 2024, totalling 1161.29 kilotonnes (kt) of oil.

TMS TANKERS LTD

🇬🇷 Made 11 shipments to Israel between September 2023 and July 2024, totalling 1095.6 kilotonnes (kt) of oil.

THENAMARIS

🇬🇷 Made 5 shipments to Israel between September 2023 and July 2024, totalling 450 kilotonnes (kt) of oil.

GOLDEN UNION

🇬🇷 Golden Union Shipping, responsible for shipping coal from South Africa and Colombia to Israel.

GOLDEN OCEAN

🇳🇴 / 🇬🇷 Has also transported coal from South Africa and Colombia to Israel.

All of these companies continue to service the Zionist entity, fueling its genocide in Palestine.

Flagrant Hypocrisy

Each of these five companies makes explicit claims to uphold human rights and three of the five – Minerva Marine, TMS Tankers, and Thenamaris – stopped transporting Russian oil after the invasion of Ukraine. Meanwhile they continue fueling Israel.

Minerva Marine Inc. and Minerva Dry Inc. aim to operate in a socially responsible manner, ensuring the safety of people and the environment, through transparent and ethical behaviour.

Our Vision: to be the model ship management company

We want to establish the very highest standards for products and service in the industry.

We continuously strive to undertake our business activities with absolutely no accidents, no harm to people, and no harm to the environment.

This discrepancy demonstrates that these companies have no particular interest in human rights. Rather, they only take action when their bottom line is in jeopardy (in the case of Russian fuel, the threat was from US sanctions). The hypocrisy is flagrant.

Cut Off Supply

In July 2025, 30 countries met in Bogotá for the Emergency Conference of The Hague Group to commit to a series of six diplomatic, legal, and economic measures in defense of international law and solidarity with Palestine.

Prevent the provision or transfer of arms, munitions, military fuel, related military equipment, and dual-use items to Israel...

Prevent the transit, docking, and servicing of vessels at any port... in all cases where there is a clear risk of the vessel being used to carry arms, munitions, military fuel, related military equipment, and dual-use items to Israel

Prevent the carriage of arms, munitions, military fuel, related military equipment, and dual-use items to Israel on vessels bearing our flag... and ensure full accountability, including de-flagging, for non-compliance with this prohibition.

Commence an urgent review of all public contracts, to prevent public institutions and funds from supporting Israel's illegal occupation of the Palestinian Territory and entrenching its unlawful presence.

Comply with obligations to ensure accountability for the most serious crimes under international law, through robust, impartial and independent investigations and prosecutions at national or international levels, to ensure justice for all victims and the prevention of future crimes.

Support universal jurisdiction mandates, as and where applicable in national legal frameworks and judiciaries, to ensure justice for victims of international crimes committed in the Occupied Palestinian Territory.

Colombian President, Gustavo Petro, affirmed his country's commitment to the Hague Agreement, stating, ***"not a single ton of coal should leave Colombia for Israel."***

SHIPPING COMPANIES: STOP FUELLING APARTHEID & GENOCIDE

Stop the Shipments

In addition to targeting points of production, efforts to cut off key supply chains are equally important.

You can support Global Energy Embargo for Palestine's efforts to hold these shipping companies to account by signing their petition (link in bio).
